SUMMARY

As a full stack developer with one year of experience, I have a strong foundation in both front-end and back-end technologies. I am proficient in languages such as JavaScript, HTML, CSS, and have experience working with frameworks like React, Node.js, and Express. I am skilled in database management and have worked with technologies like SQL and MongoDB. With a passion for learning and problem-solving, I am eager to contribute my skills to a dynamic team and continue to grow as a developer.
